Dear Sir or Madam

**Subject:** Letter of supporting request for disseminates ENRIC 2016 International Conference information.

Enclosure: Proposal Call for Paper ENRIC 2016

The Faculty of Environment and Resource Studies, Mahidol University, Thailand will be organising the **2<sup>nd</sup> Environment and Natural Resources International Conference (ENRIC 2016): Interdisciplinary Approaches to Save Future Earth Environment** during 16 – 17 November 2016 at Krungsri River Hotel, Ayutthaya.

**The Environment and Natural Resources International Conference (ENRIC)** has the following objectives: to gather researchers in environmental science and other disciplines related to environment and natural resources issues in order to present and discuss recent research findings and achievements; to offer a platform for undergraduate, postgraduate students and scientists to present their projects in a professional forum; to share current research and management experience amongst the university community, to consult with governmental agency, professionals and environmental organizations; to stimulate the development of collaborative research on environment and natural resources issues in the South East Asian (S.E.A) region; and to promote public awareness and understanding of the environment and natural resources issues.

In this regard, we would be most grateful if you could support display poster and the brochures enclosed herewith at your premises, and disseminate the relevant information to your students and staffs who may be interested in attending, or presenting papers in all areas of environmental sciences, including research articles, academic articles, reviews, commentaries, brief communications, and case series at the conference.

Please feel free to contact the coordinator at +66 2441 5000 ext. 2108–2116 e-mail: [enricconference@gmail.com](mailto:enricconference@gmail.com) for assistance or any questions and visit our website <http://www.enricth.com/> for more details of this conference.

Your cooperation in this regard will be highly appreciated.

Yours faithfully,

A handwritten signature in black ink, appearing to read 'C. Arunlertaree'.

(Associate Professor Dr. Chumlong Arunlertaree)  
Acting Deputy Dean  
Faculty of Environment and Resource Studies  
Mahidol University

**The 2<sup>nd</sup> Environment and Natural Resources International Conference  
(ENRIC 2016): Interdisciplinary Approaches to Save Future Earth Environment  
16 – 17 November, 2016, Ayutthaya, Thailand**

1. Project: The 2<sup>nd</sup> Environment and Natural Resources International Conference (ENRIC 2016)
2. Venue: Krungsri River Hotel, Ayutthaya, Thailand
3. Date: 16 - 17 November 2016
4. Rational

Environment and natural resources are essential for accelerated growth and development of any nation. Natural resources are inherently complex as they involve the plants, animals, land, water, climate, etc. All these are dynamic, interrelated and interconnected. Towards achieving the goals of livelihood security, it is important to conserve the natural resources and improve the economic viability of life. Protection and conservation of land, water, biodiversity and climate are pre-requisite to save our future earth in a sustainable way.

An integrated approach is needed for recognizing and implementing the intertwined socio-cultural, economic and political aspects of resource management. A more holistic global perspective evolved from the Brundtland Commission and the advocacy of sustainable development. Most nations subscribed to new principles for the integrated management of land, water and forests in the United Nations Conference on the Environment and Development (UNCED) held in Rio de Janeiro in 1992.

In this context, we proposed to hold an Environment and Natural Resources International Conference from 16-17 November 2016 in Ayutthaya, Thailand, to discuss the challenges and approaches to save future earth environment.

The Environment and Natural Resources Journal has been published since 2001 by the Faculty of Environment and Resource Studies, Mahidol University, Thailand. Environment and Natural Resources is an open access journal and national publication devoted to various disciplines in environmental science and technology. The journal aims to provide the most complete, up-to-date, and reliable sources of information on current developments in the field of environment and natural resource studies with an emphasis on publishing quality articles promptly and making them freely available worldwide.

It is our great pleasure to invite all for this 2<sup>nd</sup> Environment and Natural Resource International Conference (ENRIC). The target groups for this International Conference are students, researchers, academicians, scientists, NGO, policy makers and other stakeholders from the field of environment, natural resources, and sustainable development.

#### 5. Objectives

- 1) To gather researchers in environmental science and other disciplines related to environment and natural resources issues, so that they may present their recent research findings and achievements.
- 2) To offer a platform for undergraduate and graduate students and young scientists to present their projects and apply their English skills in a professional forum.
- 3) To share current research and management experience amongst the university community, consulting and governmental agency professionals, and environmental organizations.
- 4) To stimulate the development of collaborative research on environment and natural resources issues in the S.E.A region.
- 5) To promote public awareness and understanding of environment and natural resources issues.

#### 6. Conference Topics

##### **Theme: Interdisciplinary Approaches to Save Future Earth Environment**

The following are the list of suggested topics and themes for submission of research papers. Submissions need not be limited to sub-themes specified in the list.

- 1) Natural Resource Management
  - Ecology and Biodiversity Conservation
  - Aquatic Management and Conservation
  - Terrestrial Management and Conservation
  - Coastal Management and Conservation
  - Saltwater intrusion
  - Natural Disaster
  - Land degradation
  - Desertification

- 2) **Environmental Pollution Control and Management**
  - Water Pollution
  - Soil Pollution
  - Air Pollution
  - Radiation Pollution
  - Electronic Pollution
  - Radioactive Waste
- 3) **Environmental Monitoring and Surveillance**
  - Geospatial Monitoring and Modeling System
  - Geological and Geographic Information System
  - Environment-friendly Satellite Navigation Technology
  - Strategic Environmental Assessment: SEA
  - Environmental Impact Assessment: EIA
  - Environmental Health Impact Assessment: EHIA
  - Risk Assessment: RA
- 4) **Climate change and Global Warming**
  - Climate Science
  - Carbon Storage and Sequestration
  - Impacts and Mitigation
  - Mitigation and Adaptation
  - Flood / Drought Management
- 5) **Low Carbon Society**
  - Livable Sustainable City
  - Eco / Green Organization
  - Low Carbon Transport System
  - Eco Industry
- 6) **Water, Energy and Food Security Nexus**
  - Energy Innovations
  - Sustainable Agriculture
  - Clean Water and Food
  - Water and Food Scarcity

- Food Hygiene
- Human Rights to Water and Food

7) Public Participation in Environmental Decisions

- Environmental Conflict Management
- Environmental Policy and Regulation
- Environmental Governance
- Environmental Partnership
- Environmental Education and Awareness
- Resilience Management

We welcome paper submissions in English, the official language of the conference. Prospective authors are invited to submit full (and original research) papers (which have NOT been submitted/published or under consideration anywhere in other conferences/journal) in electronic (.doc only) format via submission online at: <http://www.ennrjournal.com/ENRIC>

7. Publications

Submitted conference papers will be reviewed by the technical committee of the Conference. Selected papers for ENRIC 2016 will be published in the **Environment and Natural Resource Journal (ENNRJ)**. The ISBN is 1686-5456. ENNRJ is a journal published by the Faculty of Environment and Resource Studies, Mahidol University, Thailand (Available at: <http://www.ennrjournal.com>). Environment and Natural Resource Journal was certified quality by Thai-Journal Citation Index (TCI) Centre in group 1 of science and technology. Thai-Impact Factor 2015 = 0.094 Environment and Natural Resources Journal is now indexing by Asian Citation Index (ACI) and Directory of Open Access Journals (DOAJ)

8. Number of Participants : 200 Participants

9. Important Dates:

Call for abstracts opens	1 February – 30 April 2016
Submission deadline	31 May 2016

Notification of acceptance	30 June 2016
Submission of full paper	31 August 2016
Final acceptance	30 September 2016
Early bird registration	1 June – 31 August 2016
Regular bird registration	1 September – 15 October 2016
Conference dates	16 - 17 November 2016

10. Registration Fee

<b>Foreign Delegates (USD)</b>			
General Registration	300	350	400
Student Registration	200	250	300
<b>Thai Delegate (Thai Baht)</b>			
General Registration	3,500	4,500	5,500
Student Registration	2,000	3,000	4,000

\* Registration Fees do not include a Bank Charge

### **Registration Fees Include:**

- Attendance at conference sessions and presentations, including plenary addresses and all panel sessions.
- Lunch and coffee breaks on the days of the conference.
- Gala Dinner
- In-person conference session presentation (based on accepted proposal) and scheduling into the conference program.
- The option to submit your article to the corresponding journal and participate in the peer-refereeing process.
- Full access to the online version of the journal from the time of registration until one year after the end date of the conference, as well as an electronic copy of your journal article, if accepted and published.

### **11. Contact Person**

**Conference Chair:** Associate Professor Dr. Sura Pattanakiat  
Deputy Dean for Research Administration, Academic Services  
and Information Technology  
Faculty of Environment and Resource Studies
