Subject: World Health Organization Headquarters Leadership Team

To:

Cc: RYAN, Michael J. <ryanm@who.int>, BOEHME, Catharina Cora <boehmec@who.int>, THOMAS, Raul <thomasr@who.int>, ARMSTRONG, Timothy Peter <armstrongt@who.int>, OSEI, Jude <oseij@who.int>, BALL, Andrew Lee <balla@who.int>, MURIUKI, Hilda Wairimu <muriukih@who.int>

Dear Member States,

I am pleased to introduce you to the new headquarters senior leadership team.

The leadership team has been consolidated to align with the World Health Organization's (WHO) priorities for the next five years, to accelerate progress on implementation of WHO's Thirteenth General Programme of Work (GPW13), to achieve our "triple billion" targets and the health-related Sustainable Development Goals, and to drive forward the Organization's ambitious transformation agenda.

We are welcoming five new members to the leadership team, all of whom will be in position as of 8 May 2023: Dr Jeremy Farrar, Dr Li Ailan, Dr Yukiko Nakatani, Dr Razia Pendse and Dr Jérôme Salomon.

The leadership team is comprised of equal numbers of women and men, each responsible for a key portfolio of work as follows:

- **Dr Michael Ryan** will continue as Executive Director of **WHO's Health Emergencies Programme (WHE)**. Dr Ryan has been managing epidemics and other

health emergencies for over 25 years, joining WHO in 1996 and most recently leading WHO's emergency response to the COVID-19 pandemic. He provides overall managerial leadership in Health Emergency Preparedness and Response (HEPR) including prevention, research, preparedness, readiness, surveillance and response to epidemics, pandemics, humanitarian crises and natural disasters. Dr Ryan holds a degree in medicine and a master's degree in public health.

- **Dr Jeremy Farrar** will become WHO's **Chief Scientist** as of 8 May 2023. In this role Dr Farrar will oversee the **Science Division (SCI)**, bringing together experts and networks in science and innovation from around the world to guide, develop and deliver high quality health policies and services to the people who need them most. Prior to joining WHO Dr Farrar was Director of the Wellcome Trust, and before joining Wellcome in 2013 he spent 17 years as Director of the Clinical Research Unit at the Hospital for Tropical Diseases in Viet Nam. Dr Farrar is a clinician researcher with a medical degree and a PhD.

Assistant Directors-General

- **Dr Samira Asma** will continue as the Assistant Director-General for **Data, Analytics and Delivery for Impact (DDI)**. Dr Asma oversees a portfolio that ensures health data are reliable and accessible, and are used to improve health outcomes worldwide, including tracking and accelerating progress towards the triple billion targets and the health-related Sustainable Development Goals. Before joining WHO in 2018, Dr Asma held leadership positions at the USA Centers for Disease Control and Prevention (CDC). She holds a doctorate degree in dental surgery and a master's degree in public health.
- **Dr Bruce Aylward** has been appointed Assistant Director-General for **Universal Health Coverage, Life Course (UHL)** as of 4 May 2023. Dr Aylward has been leading WHO's Transformation Agenda and the Organization's work on the multi-agency Access to COVID-19 Tools Accelerator (ACT-A) Hub. In his new role, Dr Aylward will lead the Organization's agenda on primary health care, as well as overseeing WHO's work on health systems, immunization and reproductive, maternal and child health. Dr Aylward holds a medical degree and a master's degree in public health.
- **Dr Hanan Balkhy** will continue as Assistant Director-General for **Antimicrobial Resistance (AMR)**. Dr Balkhy, provides political and technical leadership to curb the health and economic burdens of drug resistance, including through multi-sectoral collaboration with the Food and Agriculture Organization, the World Organization for Animal Health, and the United Nations Environment Programme. Prior to joining WHO, Dr Balkhy was Executive Director for Infection Prevention and Control at Saudi Arabia's Ministry of National Guard. Dr Balkhy holds a medical degree with specialization in paediatric infectious diseases.
- **Dr Catharina Boehme** will become Assistant Director-General, **External Relations and Governance (EXT)** as of 4 May 2023. In this role Dr Boehme will lead WHO's strategic engagement in the areas of governance, resource mobilization and partner relations. Dr Boehme has been serving as the Chef de Cabinet since early 2021. Prior to joining WHO she was the Chief Executive Officer of FIND, the international

alliance for diagnostics. Dr Boehme holds a medical degree and diplomas in public health and management.

- **Dr Chikwe Ihekweazu** will continue as Assistant Director-General for the Division of **Health Emergency Intelligence and Surveillance Systems (WSE)** in the Emergencies Programme. Dr Ihekweazu leads the WHO Hub for Pandemic and Epidemic Intelligence, bringing together partners to address future pandemic and epidemic risks with better access to data, analytical capacities, and tools for decision-making. Prior to joining WHO, Dr Ihekweazu was the first Director-General of the Nigeria Centre for Disease Control (NCDC) from 2016 to 2021. Dr Ihekweazu holds a medical degree, with specialization in infectious disease epidemiology, and a master's degree in public health.
- **Dr Li Ailan** will become Assistant Director-General for **Universal Health Coverage, Healthier Populations (HEP)** as of 8 May 2023. In this role Dr Li will oversee the Organization's efforts to promote better health and well-being through interventions relating to the environmental, social, and economic determinants of health, including climate change, tobacco control, chemical safety, road safety, food systems and nutrition, physical activity, air pollution and radiation, through a One Health approach. Dr Li has been serving as the WHO Representative to the Kingdom of Cambodia since July 2019. Prior to this role, Dr Li served as Regional Emergency Director for the WHO Health Emergencies Programme in the WHO Regional Office for the Western Pacific. Dr Li holds degrees in medicine and health social sciences.
- **Dr Yukiko Nakatani** will become Assistant Director-General for **Access to Medicines and Health Products (MHP)** as of 2 May 2023. In this role Dr Nakatani will lead the development and implementation of WHO's norms and policies to ensure equitable access to quality medicines, vaccines and diagnostics for all populations, including for preventing and responding to epidemics. Dr Nakatani has been serving as the Director of the Cancer and Disease Control Division of the Japanese Ministry of Health, Labour and Welfare and as the Technical Advisor to Minister of State for COVID-19 Vaccination Task Force in Japan, and previously worked at WHO headquarters for two years. Dr Nakatani holds a medical degree and a PhD in public health.
- **Dr Razia Pendse** will become the **Chef de Cabinet (DGO)** as of 4 May 2023. In this role Dr Pendse will be the **Assistant Director-General for the Director-General's Office**, helping to drive the Organization's priorities and initiatives and will ensure alignment within the WHO leadership team and across the three levels of WHO. Dr Pendse has been serving as the Director of Healthier Populations and Noncommunicable Diseases in the WHO Regional Office for South East Asia and was previously the WHO Representative to Sri Lanka. Dr Pendse holds a medical degree and master's degree in public health.
- **Dr Jérôme Salomon** has become Assistant Director-General for **Universal Health Coverage, Communicable and Non-communicable Diseases (UCN)** as of 17 April 2023. In this role Dr Salomon oversees a broad portfolio of programmes covering HIV, viral hepatitis, sexually-transmitted infections, tuberculosis, malaria, neglected

tropical diseases, mental health, substance use disorders, and noncommunicable diseases such as cardiovascular diseases, diabetes, chronic respiratory diseases, and cancer. Dr Salomon has been serving as the Chief Medical Officer and General Director for Health of France. He has been a Member of the WHO Executive Board prior to his appointment and has extensive experience in health systems management, communicable diseases and international public health. Dr Salomon holds a medical degree, a master's degree in public health and a PhD in epidemiology.

- **Mr Raul Thomas** will continue as Assistant Director-General for **Business Operations (BOS)**. In this role Mr Thomas has overall responsibility for WHO budget and planning, finance, human resources, procurement, security, administration and compliance. During his more than 25 years of employment with WHO, Mr Thomas has served in the regions of Africa, the Americas, the Eastern Mediterranean and the Western Pacific, as well as with the International Agency for Research on Cancer (IARC). In addition to managing the areas mentioned above, his experience with WHO has included managing administrative and security responses to environmental disasters and emergencies, including in areas of civil unrest and conflict. Prior to his employment with WHO, Mr Thomas worked for two years for the United Nations Development Programme in New York City. Mr Thomas holds a Master's degree in Organizational Management and a Bachelor's degree in Business Administration.

My leadership team and I look forward to working with you to ensure our work aligns with your needs and priorities.

Warm regards,

Dr Tedros
